The Michigan Constitution as well as the United States Constitution makes it clear that judges are NOT to make the law but rather interpret the law.

Why is the Michigan Supreme Court even considering taking steps that would effectively change the law by denying Michigan asbestos disease victims their right to a jury trial.

It seems that Michigan and the Michigan Supreme Court are being used and abused by the asbestos industry to deny a jury trial when injured by corporate misconduct and their misuse of their products.

The real crisis in Michigan is the failure of corporations to take responsibility for their bad actions and the willingness of big business and certain conservative republican judges to blame the victims of corporate misconduct instead of holding the corporations accountable.

The true facts about asbestos litigation in Michigan is in the last four years there has been only one asbestos case tried to verdict. All other cases were settled before trial.

Don't take away my right to a trial, I am a victim.
